INTEGRATING TECH TOOLS TO MEET GIFTED STUDENTS' NEEDS

☆ Home

Edit 0 0 3 ...

Welcome to GT Tech Tools!

This is an open wiki, so feel free to contribute in order to enhance everyone's learning.

From this wiki you will be able to navigate to all the web sites used in workshops. In addition, the handouts will be posted here for easy access. Finally, it could grow into a community for GT teachers and specialist who are working toward the shared goal of integrating technology tools into instruction to meet gifted students' needs. In order for a community to develop, you have to take the risk of contributing to the wiki. Simply click on "edit" and add to any page to contribute!

Thanks for your dedication and commitment to meeting gifted and talented students' needs. This special needs population needs strong advocates, especially in a time of shrinking budgets.

If you have questions or concerns, [Dr. Lynette Breedlove](#) of [Spring Branch ISD](#).

Task 1:
Morrisons provides very basic training for all their employees. When the company employs a new employee before they start work they have an induction day. This is where all the new recruits get brought into the store where they are going to work, then they are sat down and talked through all the procedures that Morrisons enforce. Below are the different types of training that Morrisons offers and to which staff:

Basic health and safety and awareness, this is given when any new employee is employed. This includes tour around the shop, shown where all the different fire exits are, how to use the fire exits and what to do in case of a fire. They are shown all the different departments and told how they all function to enable the company to function. This training helps all the staffs have a very basic understanding of the company and its functions, this helps the employees feel that they are playing a main part in making the company function and increases overall productivity.

Till training, this is given only to those members of staff that are going to be using a till. Normally it is to the cashier but on rare occasions it is given to shop floor employees, for the busy times of year like Christmas so that they can help out. They are other types of till training that takes place within Morrisons these are in the customer café, because they have an ordering system as well as a till, and in the petrol station. Go back in time if you make a mistake or want to go back to a previous point, but by giving other members of staff training, this helps the checkouts at there busy times by more members of staff been available to work on till. This means the customers a better feeling when all the tills are open at Christmas time.

****The Books!****

Self-Help/Reference Books

Welcome to the Great Books for Gifted Kids Wikispac!

The goal of this wiki is to provide teachers of gifted and talented students a place to start when looking for great books for gifted kids. Here you'll find suggested books and information about those books. In addition, I hope teachers will post or link to great lesson plans using the books suggested here.

Feel free to link, discuss, comment, and add pages on books you suggest.

To be included here, a book must:

1. **feature a character who exhibits gifted and talented characteristics**
2. **deal with some issue that gifted children often face.**

It also helps if it's a book of high quality, such as award winners.

When you add a page about a book, be sure to add it to Summary Chart called **The Books!** in the navigation bar. That's how others will find it.

Each individual book page should include the following, if possible:

Title:

Author:

Illustrators:

Publisher & Date:

Basics:

- Ages:
- Type (picture, chapter, young adult, adult):
- Length:
- Themes (issues related to gifted, e.g. asynchrony, peers, introversion, sensitivity, intensity, perfectionism):

Main Character(s):

- Name(s):
- Age(s):
- Characteristics of giftedness (e.g. advanced vocabulary, imaginal overexcitability - see [Silverman's List or the Overexcitabilities](#)):

Bibliotherapy question:

Reviews:

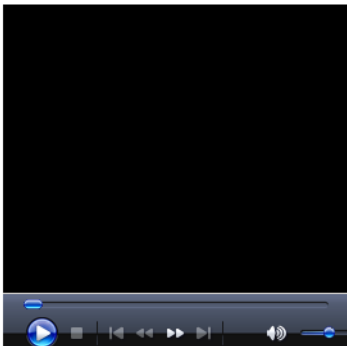

Personal recommendation:

Links to lessons:

Other: (e.g.: Wordle, links to author interview, student book review)
